

Creating Mosaic Habitat with Pollinator Links

Patch-matrix-corridor mosaic - Wellers Hill – Toohey Forest

Pollinator Links have potential to create urban pollinator “patch-matrix-corridor mosaic”* habitat by interconnecting patches of bushland with wildlife friendly backyards.

* *Habitat Fragmentation and Landscape Change* Lindenmayer & Fischer (2006)

Potential Pollinator Links
Width: approx. 150 metres
or 5 to 10 house blocks wide.
